While in general it is unfair and unwanted by most of the server community, these actions are allowed in moderation if it done for fun or is done in moderation. Ie: glitching via mods to get through a maze or etc. The aforementioned forms of cheating are not accepted under any circumstance unless properly documented, if the cheat is known and can be done by most people then it's deemed not acceptable unless given permission by admins. So be careful what you do, so that if caught you don't get banned from the server or even Mojang servers.",

Players can build anything they want with real-world objects inside the game. You can build a castle, a spaceship, or even an entire city. And although you have a very limited space to build in the game, that's not necessarily true of the game itself. Many players find that there are never enough resources to fit their plans for how they want to play Minecraft. While this can be great fun for creative or artistic players, it can be frustrating for others who just want more materials and better crafting recipes for building more things.",

"Rust" takes place in a post-apocalyptic world where climate change has reportedly caused most animals (including humans) to become extinct. A player begins their journey by choosing to build themselves a shelter or start mining and gather resources as soon as possible for crafting valuable items which can be sold for money. There are currently a total of five different servers available for players to choose to play on. Each of these server types vary in difficulty, with playable game modes including deathmatch and conquest mode.",
